Black Mountain Golf Club

Black Mountain Golf Club opened in April 2007. The Golf Course is located only 10 kms from Hua Hin in a valley surrounded by lush hills on 3 sides. The course is built on undulating land, using the natural features, such as creeks and rocks to create a spectacular course with magnificent views. This is the first golf course in this area to use paspalum grass on the fairways and native red grass to frame the holes. The designer, Phil Ryan, set out to build a course that would test the best but also be playable for the average golfer and leave a lasting impression of its natural beauty. Bring your cameraman with you when you visit Black Mountain.
