

EVASON HUA HIN

& SIX SENSES SPA

Kitesurfing Compendium

Kiteboarding Introduction

We would like to invite you for a kiteboarding course in Thailand. Kiteboarding Asia, in partnership with Evason & Six Senses has more than 15 kiteboarding schools in Thailand, Vietnam and Africa. With more than 10 years experience in teaching kiteboarding and using only instructors holding a certification, we are the right school to come for professional instructions. Using only the latest equipment we will get you up and riding in no time. All our schools have an equipment showroom and are insured and certified by the International Kiteboarding Organization (IKO). Kiteboarding is a very new, exciting, up and coming watersport that anyone can learn in only 3 days and does not require you to be a certain age, weight or in a good shape. Think of kiteboarding as walking in a fast pace - it's not very physically demanding since you are connected to the kite through a harness. We offer you:

- **Professional instructions**
- **The only certified school in Thailand**
- **An experience that can change your life**
- **Insurance and certifications**
- **10 years experience teaching**
- **The biggest Kiteboarding company worldwide**

The sport and Kiteboarding Asia

It's quite an amazing feeling to get pulled by a kite across the warm oceans of Thailand. Kiteboarding, also known as kitesurfing, is a very easy and fun sport that anyone can learn. Kiteboarding is no longer an extreme sport since the invention of new, safe equipment in 2006. However it's important to learn with the right kitesurfing school. Kiteboarding Asia is certified by the International Kiteboarding Organization (IKO). We certify more than 2,000 students and instructors every year. We have a 2,000,000£ insurance with Lloyd insurances.

Kitesurfing in Pranburi

Pranburi get the best wind for kite surfing in Thailand - and we have wind all year around! We offer the ultimate environment for kitesurfing lessons in Thailand -flat water, wide swallow sandy beaches, no speedboats jet skis or banana boats disturbing and a huge area for kite surfers. Add to that a lot of sun, the area in Thailand with the least amount of rain per year, white fine sand, pristine beaches and the beautiful waters of the Gulf of Thailand.

Kitesurfing Packages

We have three packages with a special price for Evason & Six Senses guests and we also offer a free pickup service.

1 day discovery course - Gives you a good taste on what kiteboarding is all about. Equipment and International certification included.

3 day beginners course - Covers all you need to know to get up and going on the board - Up to or completing IKO kiteboarder Level 2. Equipment and International certification included.

11,000 Baht

1 day private lesson - One day private tuition 1-on-1 with an instructor. Equipment and International certification included.

8,000 Baht

Information about the lessons

We teach a maximum of 2 students per IKO qualified instructor. We recommend the 3-day kitesurfing beginner package if you have never flown a kite or done kiteboarding before. We give new kite surfers all the necessary skills, knowledge and experience needed to kiteboard in a safe, responsible and competent manner. The goal with the course is to bring you up to a level where you can go out and continue practicing safely by yourself. We will walk you through all the steps needed to kiteboard in a safe way.

Available to all our students is the International Kiteboarding Organization (IKO) booklet developed over the years as a supplementary tool to your instructions. It covers information on kite safety guidelines, weather, equipment, pre-flight checks, rigging up and much more. It is designed to help fill any gaps you may have after you leave our kite surfing schools or as a refresher if you haven't been kite boarding for a while. We will also let you watch an instructional kitesurfing DVD which is available in many different languages.

If you don't have 3 days to spare we offer a 1-day discovery course which will give you the basic skills and a good understanding of kiteboarding and the equipment. If you have previously completed training or need to brush up your skills this is a good choice for you. For those who don't like the group teaching environment, we offer a private course, 1-on-1 with an instructor. This can help in fast tracking you through a course or help to work on a particular area such as jumping or riding toe-sided.

Equipment

At our centers we use new technology kites, boards and accessories during all lessons. You will learn much faster on new technology equipment. Depending on your weight and skill level we use either of the tried and tested Airush square 1 or 2 boards. These boards are of bi-directional design with large volume to make it even easier to get up and riding in no time. Kites: we use only 4-Line inflatable Cabrinha and Airush kites during lessons. In the first lesson we start out with a 4-line kite in the 6-9m² size range. When you are ready we progress to larger kites depending on the wind strength and your body weight. KBA has a large selection of kites ranging from 1 to 18m². If you take the 1-on-1 private lesson we offer the possibility to use a water proof radio helmet.

More on lessons

We supply seat and waist harnesses, Gath safety helmets, and buoyancy/impact vests during lessons. We use a Jet Ski that for safety and teaching. Items that you should bring to the lesson: UV rated sunglasses with a secure strap, a hat with a strap, lots of sun screen and a rash vest. If you need anything mentioned above you can pick it up in our shop.

3-day IKO Beginners course

Using the latest IKO teaching methods and new technology equipment, we place a major emphasis on learning to safely rig / land / launch / fly a 4-Line inflatable kite. We want flying an inflatable kite to become second nature to you. Learn to fly these kites confidently and safely and the board riding will be easier than you would ever expect. In all our lessons we keep theory to a minimum and placed more emphasis on getting into the water and start practicing as soon as possible. By the end of the 3 days we make you an IKO kiteboarder Level 2 in other words - you are now an intermediate kite boarder and are presented an International certification which can be used all around the world to gain access to private beaches, entitles you to rent equipment and offers you a special insurance. Only our school offers certification.
