Smell: the lingering aroma of a citrus twist or the invigorating bouquet of a sprig of fresh mint

Sight: the sophisticated beads of condensation caressing the face of a glass or the effervescent flair of a flamed orange twist

Touch: the satisfying sting to the lips of an ice-cold libation or the comforting weight of a quality blown-glass resting in your hand

Taste: the harmonious medley of local flavours in a well balanced cocktail or the simple complexity of Brown Bar's signature oak-aged spirits

Soil of Jordan

The **Zumot** families are vintners in Jordan since 1954, but in later years they also thought it useful to identify land that would be suitable for viticulture and wine production. Their aim was not so much to make wine in Jordan as much as to create the Wines of Jordan that would highlight and express the characteristics and uniqueness of this land steeped in history.
