

OVERVIEW

THE JOURNEY STARTS HERE

Six Senses Hotels Resorts Spas are discovered in some of the world's most exquisite destinations. Whether cradled by dramatic mountains, perched on a vine-laden hilltop, or dipping sun-kissed feet into an opal bay, each one begins with nature getting everything just right. With that in mind, Six Senses always aims to enhance not diminish it, preserving and rebuilding environments ranging from coral reefs to lush jungle.

From its simple beginnings with a single resort in 1995, Six Senses is now recognized as a pioneer of sustainable practices, demonstrating that uncompromisingly gorgeous hideaways can live in harmony with local communities and ecosystems. Today, the hospitality management company upholds this same ethos across one hotel, 15 resorts and 31 spas operating in 21 countries under the brand names Six Senses, Evason and Six Senses Spas.

DESIGNING

Six Senses believes in designing and building sublime experiences while making smart use of the natural land topography and materials. Each property has a distinctive and locally inspired design personality. Owning a piece of the extraordinary Six Senses lifestyle is also made possible with Six Senses Residences, for indulgent living as nature intended.

CRAFTING

While being part of the local fabric, Six Senses has a global outlook, recognizing the stresses experienced in modern life. That's why, when guests arrive (be it by car, boat, helicopter or even paraglider), resort hosts do what they can to slow life down. Experiences are carefully crafted to reawaken the senses to help guests retreat, reenergize and restore inner calm, in places that enable positive energy to flow. Once the *being* is underway, guests can start choosing from a vast array of land and water-based activities and diversions.

RESPECTING

From popping the question, to getting the entire family together to celebrate a milestone, or adding a personal touch to a business meeting, if it matters to guests, it's a priority for Six Senses. That's why Six Senses is intimate, offering an emotionally intelligent approach to hospitality that begins with empathy. Thinking everything through so that nothing shouts too loudly ... the aim is for guests to want for nothing and remember everything. There's also an inherent a touch of quirkiness to the experience; it comes from a natural playfulness and curiosity about challenging the norm.

SOOTHING THE SENSES

The Six Senses Integrated Wellness philosophy is founded on several building blocks. It starts with improving sleep quality through cloud-like beds and villa amenities. From sleep to eat, Chefs create sustainably sourced meals packed full of fresh ingredients that are as nutritious as they are delicious. And at Six Senses Spas, guests can surrender to the ministrations of expert therapists for a wide range of signature massages, indulgent treatments and holistic therapies. The high-tech and high-touch approach guides guests on their personal path to well-being, taking them as deep as they want to go.

Today, Six Senses is expanding into new and exciting locations, and the portfolio is set to triple over the next five years. All operational aspects of Six Senses; including the Evason brand, will continue to uphold the enduring Six Senses purpose: to help people reconnect with themselves, others and the world around them.
