

SIX SENSES
CON DAO

Drinks List

Crystal Water

To avoid transportation of bottled water, the connected carbon dioxide emissions as well plastic waste, we have built our own Crystal Water plant.

This provides clinically pure, remineralizer drinking water to all our guests and hosts. Institute Pasteur in Ho Chi Minh City ascertains our quality, safety and potability of Crystal Water once a month.

Our goal is to provide clean drinking and cooking water for the whole local community on this island. The entire profit from Crystal Water goes directly to this project. With your help in the past, we have been able to build a Crystal Water supply plant for the local Con Dao primary school and the local hospital.

Thank you very much for your kind support.
