BOTANIQUE

## *Six Senses Botanique*

A further 11 individual villas are cleverly scattered in the lush hills to guarantee privacy yet every comfort, creating a place in which to rekindle connections with nature and the world around.*

## UNIQUE EXPERIENCES

- Pico Agudo: Launch off the summit for an unforgettable paragliding experience. If you'd like to keep your feet on the ground, there's also a viewpoint with a panoramic view.
- Ice cream factory: Let's start right from the first step, and how crops are grown and cows are fed in an organic way to guarantee the best flavor. Milking cows is the next step to producing ice cream, cream cheese, butter and more. Choosing your favorite flavor is the hardest step of all!
- Foraging incorporates the essence of flavors from the surroundings and this is how our Mina Restaurant brings the Mantiqueira to the table. You can accompany our chef on this quest and take a stroll through the forest to discover a few surprises along the way.
- We're fortunate that we have centuries-old araucaria trees, and we also replant native species. This means there are 350 different species of birds that call the Mantiqueira region their home. Put your phones away and instead follow the bird call, accompanied by our biologist to learn about their different songs, plumage, colors and habitats.
- The Mantiqueira region is booming with local producers. Understanding the soil along with basic concepts of agriculture and permaculture are just the starting point. Enter the wonderful world of olive oil to understand how olive trees are planted and harvested, and taste the oils to savor all the distinct flavors and aromas.

- The Mantiqueira region is well known for its amazing mountain biking terrain. There are many tracks with different levels of difficulty. Enjoy a family day out or go for something more extreme. We can also provide a guide to cycle with you and show you the hidden gems of trails.
- At the end of a busy day, lie back and relax in our private cinema room. Get carried away to a different era, space and time. Our wide selection of titles has been curated by an expert in Brazilian cinema.
- The late afternoons are made for horseback riding! Breathe the fresh air, feel the wind and take in the blue sky and rich greens from the trees. Enjoy a mindful moment as you take to the trails on one of our beautiful horses and reset your rhythm to the rhythm of the mountains.
